

*With plasters on mouths - Yes to "freedom of opinion and expression",
Yes to Issa , No to netanyahu and No to calling this call antisemitic:*

It is not antisemitic to say in facebook "Yes to freedom of opinion and expression", as Issa did (and just for that was detained), to support refugees as they are (even when they are) palestinians, to call for boycotting products or to say this:

- Netanyahu nowadays is before being prosecuted in 5 cases, each leading to the jailhouse and like a child, he makes his personal problem the world's problem, by making wars endlessly. It is necessary to confine him because he could run wars as much as he like.
- There is now attack on syria together with talks about palestinians becoming harder to be controlled, as a 10 days military exercise, the biggest in 20 years, is claimed to be only in israel while simulating removing hizabala/iran from Lebanon and Syria.
